# TYD

Your Animal's Health is Our Concern

## Organic

### Supports Normal Thyroid Balance

An unhealthy thyroid can result in occasional weight gain and weight loss.

TYD works with the body to:

- ❖ Help purify unwanted buildup and toxins from the thyroid.
- ❖ Help support normal balance of the thyroid gland.

TYD can be given daily to support normal thyroid activity or when extra help is needed.

**PAXXIN**

**NUMO CARE**  
Bronchial Support

**TUMOXIL**  
Skin Detox for Canines

**TOSSA-K**  
Immune Support

**VINTESTA**  
Sinus Support with Antioxidants

### The Thyroid Gland

The thyroid gland is the largest of the ductless glands. This gland produces hormones, thyroxine (T4) and triiodothyronine (T3). The primary function of these hormones regulate and maintains your pet's metabolic rate which in turn affects their overall health and well being.

Another hormone called *thyroid stimulating hormone* (TSH) which is produced by the pituitary gland, controls the production of the thyroid hormones. If the thyroid does not function properly, there may be a negative impact on your pet's body weight, heart rate, skin and coat, digestive and reproductive health.

### Helpful Tips

There are several things you can do to help keep your pet's thyroid healthy.

- ❖ Diet. Feed your pet a species appropriate diet.
- ❖ Exercise. Ensure that your pet gets regular exercise.
- ❖ Immune System. Support your animal's immune system. We recommend Vibactra Plus.
- ❖ TYD. TYD contains herbs to support a healthy thyroid.

### TYD

TYD helps support the normal daily functions of the thyroid.

TYD is made from the highest quality Non-GMO herbs available. The herbs we use are certified organic ingredients. The herbs in TYD are used and pressed only one time to ensure the best potency for your pet.

TYD is available in both 1 oz and 4 oz bottles. Each bottle comes with instructions and a 1 ml/cc syringe.

### DIRECTIONS FOR USE
