ADIZONE C

Your Animal's Health is Our Concern

Joint & Muscle Support for Felines

Adizone C is designed for felines experiencing occasional discomforts associated with:

- ❖ Running
- ❖ Jumping
- ❖ Climbing stairs
- ❖ Normal aging process
- ❖ Normal indoor & outdoor activities

Joint & Muscles

Joints & Muscles are part of your pet's body that significantly contributes to their quality of life. When joints and muscles are in good working order, life is good. However, if something goes wrong, it can mean fewer adventures indoors and outdoors.

What causes poor joint & muscle health?

Age, overuse or underuse of the musculoskeletal system, injury, genetics, and poor nutrition.

Helpful Tips for Healthy Joints & Muscles

We can help our pets from free radical damage and inflammation through a species appropriate-diet and exercise. If your pet has poor joint & muscle health, supplement with Adizone C and for maximum support add Amber Technology's Catizol.

Why is nutrition and exercise important to joint and muscle health?

- ◆ **Species Appropriate-Diet**
A foundation for good health is a species appropriate-diet. The food they eat will build up or tear down their health.
- ◆ **Exercise**
It is difficult to get cats to exercise. Exercising increases joint & muscle health by building strong muscles around the joints, and increasing flexibility and endurance. Exercise is vital for pets who are experiencing poor joint & muscle health. Start gently and work your way up by walking your cat on a leash, getting them some new toys, catnip and Adizone C, which may be helpful in getting your cat to move more. Regular, consistent, moderate exercise offers a whole host of benefits to our companions health.

ADIZONE C

Adizone C may help ease occasional aches and discomforts in feline joints & muscles caused by training, competition, normal daily exercise and activities. For maximum support add Amber Technology's Catizol.

Adizone C is made from the finest Non-GMO premium ingredients available. We purchase organic when we can and many of the ingredients we buy are wildcrafted, kosher, gluten free and they are all certified.

Adizone C is available in a 1 oz or 4 oz bottle. Instructions and a 1 ml/cc syringe is provided with each product.
