

Reptaid/Reptaid XL has many uses to help maintain the health of your animal. Reptaid has been known to help with:

Environmental Changes

Animals sometimes have a hard time adjusting to new environments. These changes can cause the animal to stress and become sick. Reptaid/Reptaid XL has been known to help keep animals healthy while making these changes.

Immunity

Reptaid/Reptaid XL has herbal properties and is high in antioxidants to help keep the animals immune system running in tip top shape. Help keep your animal healthy & thriving.

Upper Respiratory Functions

Sometimes an animals respiratory system can become overloaded with environmental irritants causing it not to function properly. Reptaid/Reptaid XL has been known to help support and balance normal respiratory functions.

Eyes & Mouth Health

Eyes and mouth problems are common in reptiles. Reptaid/Reptaid XL helps support the immune system helping them overcome these challenges.

Bodily Energy

Reptaid/Reptaid XL helps keep animals health in tip top condition. When animals feel healthy and strong they have more energy and with more energy, more fun to watch.

Healthy Digestion

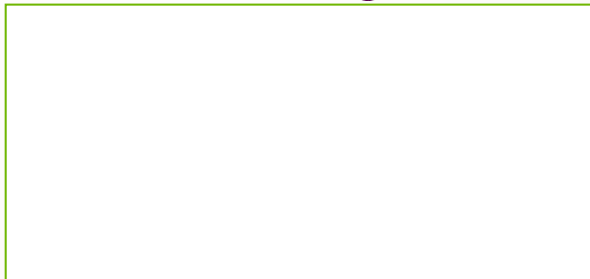

Reptaid/Reptaid XL has been known to help boost an animals appetite. This is very much needed when animals are feeling weak or a little under the weather.

Unique ways to administer Reptaid/Reptaid XL

GAPING (when the mouth is open wide): squirt the Reptaid/Reptaid XL into the mouth when they gape at you.

INJECTING A BUG: using a needle, inject the correct dose of Reptaid/Reptaid XL into the bug. Be sure the bug is eaten. Crickets, Dubia Roaches and Hornworms work best.

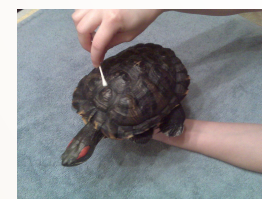

Step 1

Step 2

Step 3

Hold the reptile in one hand and gently rub a small rubber spatula between its lips until you can get it between the teeth. While biting the spatula, squirt the Reptaid/Reptaid XL between his teeth.

CRACKED SHELLS:

1. Remove turtle from water.
2. Dry the shell very well.
3. Administer Reptaid XL directly to the cracked shell with a Q-tip.
4. Administer Reptaid XL orally per the dosing chart.
5. Keep the turtle out of water for 1-2 hours to give herbs time to work.
